# PT-P700

## Desktop Label Printer

Simply connect to a computer to design labels and print labels.

- Plug and Print with no printer driver required (For P-touch Editor Lite version)
- Print on 3.5, 6, 9, 12, 18, 24mm TZe laminated labels
- Compatible with Windows® and Mac OS® systems

With its in-built P-touch Editor Lite software and fast print speed, labels can be created and printed whenever require. Simply plug-in, design and print with no printer driver installation required.

PT-P700

# Design and print durable labels on PC or Mac OS® systems

PT-P700 label printer helps to organise offices with clear identification labels for file folders, archived documents, USB thumbdrives, and shelves. P-touch Editor software allows the use of the computer fonts, images, logos, and frames on labels. With a wide variety of TZe laminated labels colours and sizes to choose from, professional looking labels can be generated to help organise items in the office efficiently.

Choose from any of installed true type fonts

Include frames around text

Prints from 3.5mm to 24 mm label width

30mm per second fast print speed

Add a range of installed symbols to labels

Add a logo or image to labels

Easy to connect, use and share in the office

Built-in automatic cutter

## TZe laminated labels – designed to last

Brother's TZe laminated tapes consist of six layers of materials, resulting in a thin yet extremely strong label. The direct thermal transfer ink is sandwiched between two protective layers of PET (polyester film) which protect the text against the effects of liquids, abrasion, temperature, chemicals, and sunlight. As the labels are tested to the extreme, professional quality labels have been designed to last.
