Compact & Portable Design

Built to fit any home or office environment

Connect to PC or Mac OS® systems

Connect via USB and access to Brother's P-touch Editor software to create label.

Brother's Design&Print 2 App and iPrint&Label App

Tested to work with Android™* and Apple iOS®*, these apps allow the customisation and selection of fonts, designs and material to suit any preferences.

The apps can even display the actual text and background colours in print preview mode.

*Operating systems: Android™ 5.0 and above and Apple iOS® 13.0 and above.

Expand creativity with a great range of tapes

With a great variety of different tapes to choose from, the possibilities are endless. Create stylish premium, ribbon, decorative and laminated durable tapes that will add an extra flair to home or offices.

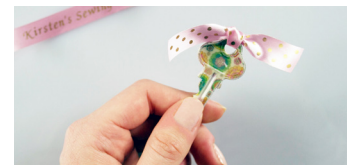

Premium Tape Range

Add some shine to the organisation with three new premium tapes provided in glittery design.

Ribbon Tape Range

Select from four choices of labels ranging from premium quality to beautiful satin ribbons. The gold characters on the ribbons are printed using thermal heat transfer technology which do not fade or fall off, and can be integrated into clothing.

Decorative Pattern Tape Range

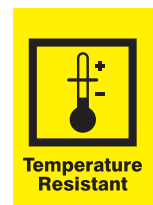

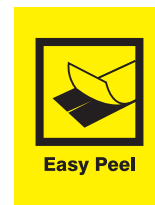

Add a personal touch with durable and unique pattern tapes. With four options to choose from, gifts can be stand out from the rest.

TZe Tape Range

Brother's TZe laminated tapes consist of seven layers of materials, resulting in a thin yet extremely strong label. The thermal transfer ink is sandwiched between two protective layers of PET (polyester film), which protects the text against the effects of liquids, abrasion, temperature, chemicals and sunlight.

As the labels have been tested to the extreme, a professional quality label has been designed to last.

Specification

Print Speed	20mm per second
Print Resolution	180dpi (180dpi x 360dpi in high resolution mode)
Cutter	Automatic cutter
Print Method	Direct thermal
Power supply	Li-ion battery (PA-BT-005)
Tape type	TZe tape: 3.5, 6, 9, 12, 18, 24mm
