- Print on 3.5, 6, 9, 18, 24mm TZe laminated tapes
- Print from mobile devices
- Compatible with Windows®, Mac® OS Systems, iOS® and Android™ OS
- Wireless or Near Field Communication (NFC) connectivity

**LABELS THAT STICK.**

*P-touch*

## TZe laminated labels – designed to last

Brother's TZe laminated tapes consist of six layers of materials, resulting in a thin yet extremely strong label. The direct thermal transfer ink is sandwiched between two protective layers of PET (polyester film) which protects the text against the effects of liquids, abrasion, temperature, chemicals, and sunlight. As the labels are tested to the extreme, professional quality labels have been designed to last.
